

## Tech Alert

# *Increased Meeting Chat Size in Microsoft Teams*

MODERN OFFICE

### What is new?

In January 2021, Microsoft Teams meeting chats were increased from 300 to 1,000 participants.

If you require a solution to facilitate a larger meeting, Teams Live Events supports up to 10,000 participants and is now available with existing licences.

### What are the benefits?

Increased meeting chat size will accommodate any organisation who usually need to split up their meetings into separate ones.

This update means that these organisations will now be able to hold more interactive meetings and facilitate collaboration with more team members across the board.

### What is Microsoft Teams?

Microsoft Teams is the digital teamwork hub for modern businesses, facilitating collaboration with workspace chat, audio and video conferencing, shared file storage and application integration.

Teams is part of the Microsoft 365 family and is accessible via desktop, mobile and web devices.
