Dynamic View Coming to Microsoft Teams Meetings

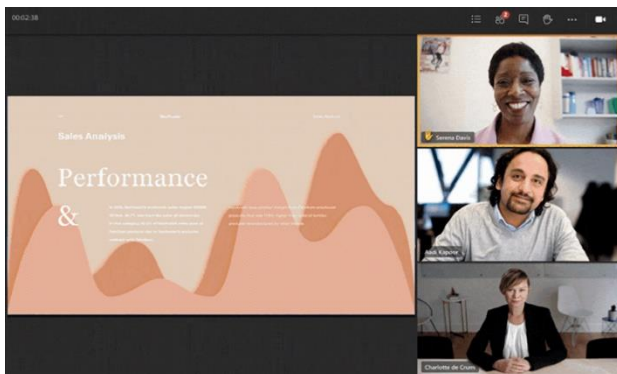

MODERN OFFICE

What is new?

Microsoft Teams is introducing Dynamic View to meetings to improve audience engagement. Dynamic view will automatically optimise shared content for video participants in Teams meetings.

Participants will also have the option to display slides and the key speaker in a larger frame, next to each other.

This feature update gives users more control and personalisation over how they see shared content, as well as the other participants in the meeting.

Products: Microsoft Teams

Cloud Instance: Worldwide (Standard Multi-Tenant)

Release Phase: General Availability

Status: Rolling out

Release: May 2021

What is Microsoft Teams?

Microsoft Teams is the digital teamwork hub for modern businesses, facilitating collaboration with workspace chat, audio and video conferencing, shared file storage and application integration.

Teams is part of the Microsoft 365 family and is accessible via desktop, mobile and web devices.
