Top Hits in Search Coming to Microsoft Teams

INTELLIGENT OFFICE

What is new?

Top hits in search autosuggest is coming to Microsoft Teams to help you find the right files, faster.

What are the benefits?

When available, top hits will be a new section at the top of the autosuggest search results. This is where Microsoft Teams users will see the most relevant results.

For example, if you search for a specific document such as "Ortani Proposal", top hits will browse through teams, channels, tabs, chats and files to find the results that users interact with the most. These results will be placed above all others.

Top hits in Microsoft Teams search will be especially useful when sifting through content with similar file names.

What is Microsoft Teams?

Microsoft Teams is the digital teamwork hub for modern businesses, facilitating collaboration with workspace chat, audio and video conferencing, shared file storage and application integration.

Teams is part of the Microsoft 365 family and is accessible via desktop, mobile and web devices.
