Walkie Talkie Feature Coming to Microsoft Teams

MODERN OFFICE

What is new?

Like traditional walkie talkies, the Walkie Talkie app on your Teams phones provides an instant push-to-talk (PTT) communication for your team.

To use the feature, you simply need to press and hold a button to speak, and then release the button to listen.

Users can connect with their team using the Walkie Talkie app through Teams channels.

What are the benefits?

This feature enables you to turn your smartphone or tablet into a walkie talkie that works over cellular data or Wi-Fi.

The Walkie Talkie app is ideal for front-line workers or those who run day-to-day operations inside companies as it facilitates quick and secure communications.
